- 12、 Universal adapter mount \*1

## Product Information

### CA-SGU Universal Adapter Mount

Universal Mount Size: 3.2-5.8cm

Weight: 0.14kg

With the universal mount, the accessories for SG-100 can be used on any other speedlites (e.g. V860 II). The sophisticated design allows it to be fixed on speedlites of different sizes firmly.

### SGA-BD4 Barndoor

Size: 9.5cm

Weight: 0.07kg

Barndoors are widely used by photographers to conceal unwanted light, change direction of light and illumination coverage. By adjusting light with a barndoor we can emphasize what we want to stand out. To create stunning visual effects outdoors, one needs to illuminate the model and dim the light on the background. A barndoor can gather scattered light together to form an intensified, solid beam, conceal excessive light and form a distinctive contrast with the background.
