A9 III A6600 A9 A7R IV A7S III A7RIII A7 III

! CAMERA NOT INCLUDED.

INSTALLATION STEPS

Note: Camera is NOT included.

Please be sure to close the battery chamber cover after putting in the dummy battery, otherwise it won't work.

1 Open the battery chamber cover and pull open the power connector cover at the bottom of your camera. (Next to the chamber cover latch.)

2 Ensure that the external DC Coupler dummy battery is placed in correctly.

3 Pull the DC coupler cover upward to make sure the DC cable is out of the slot.

4 Close the battery chamber door and pass the power cord through the reserved power connector (whose cover you just pulled open in Step 1).

5 Link AC / DC Adapter & US Plug Power Cord.

6 Finished.

UNLIMITED WORKING HOURS

Get this dummy battery kit with AC/DC adapter replacement for NP-FZ100 to power your camera for long hour filming.
